Chesterfield, Missouri 63017

Dear Mr. Blair,

I am still amazed at the feat that was accomplished with the installation of our portable classrooms. Thank you for all of your assistance and persistence in ensuring that all of the many steps that had to take place actually did happen. You had a very tight schedule yet with your supervision we were able to begin school on time. School opened on August 24 and all students at Boone Trail Elementary were able to attend class in a classroom!

Thank you for the many extra phone calls you made, the hours you put in, and most of all for the persistence in continuing to move the project along until completion the day before school started.

Sincerely,

Jane Brown
Principal
